Review Scope

This checklist documents UI consistency, page layout, validation, error handling, compatibility, responsiveness, performance, and production readiness observations.

ID	Area	Checkpoint	Status	Priority	Observation
QC-001	UI Consistency	Header, footer, buttons, spacing, colors, typography are consistent across pages.	Pass	Low	No major UI inconsistency observed.
QC-002	Page Layout	Main pages align correctly and content is not clipped on desktop layout.	Pass	Low	Desktop layout appears stable.
QC-003	Form Validation	Required profile/contact fields display validation when blank.	Pass	Medium	Required field validation is present.
QC-004	Input Validation	Email and phone fields reject invalid formats.	Pass	High	Invalid email/phone formats are handled.
QC-005	Error Handling	User-friendly error messages appear for invalid actions.	Minor Fix	Medium	Some messages should be more descriptive.
QC-006	Browser Compatibility	Application works in Chrome, Edge, and Firefox latest versions.	Pass	Medium	No blocking browser issue observed.
QC-007	Mobile Responsiveness	Pages remain usable on mobile viewports.	Minor Fix	Medium	Some table columns require horizontal scrolling.
QC-008	Performance	Pages load within acceptable time for basic use.	Pass	Medium	No major slow loading section observed.
QC-009	Broken Assets	Images, icons, and CSS files load without missing asset indicators.	Pass	High	No broken image/CSS asset observed in basic review.
QC-010	Navigation	Primary navigation links route to correct pages.	Pass	Medium	Navigation works as expected.
QC-011	Accessibility Basics	Buttons and links are visible and readable.	Minor Fix	Medium	Focus indicator can be improved for keyboard users.
QC-012	Production Readiness	Deployment checklist items reviewed before release.	Ready with Minor Fixes	High	Release can proceed after minor fixes are addressed.
