Repository: <https://github.com/mustafa-thecareerinsights/Software-Quality-Review-Release-Readiness-Report>

Risk Summary

The overall risk level is Medium. Risks are mostly usability, mobile presentation, and release process improvements.

Risk ID	Severity	Priority	Risk Description	Mitigation / Recommendation	Status
RISK-001	Medium	High	Some error messages are generic and may confuse users.	Improve validation copy and provide specific corrective guidance.	Open
RISK-002	Medium	Medium	Responsive tables may require horizontal scrolling on small devices.	Add responsive card layout or reduce table columns on mobile.	Open
RISK-003	Low	Medium	Keyboard focus indicator is not strong enough on all controls.	Increase focus outline visibility for buttons, links, and inputs.	Open
RISK-004	Low	Low	No automated regression suite is documented for release verification.	Add smoke/regression checklist to future release cycles.	Open
RISK-005	Low	Medium	Performance has only been reviewed manually, not with load testing.	Run Lighthouse or performance profiling before high-traffic release.	Accepted for current release
